**Explanation:**

**Standard Achieved. Ultimately, the desired standard and achieved results for this measure would be zero. This standard is expected to fluctuate each year. It is difficult to identify specific activities that would guarantee consistent statistics in this standard. The numbers of recreational boating injuries that occur are directly linked to the number of boating accidents that occur each year. Many external factors, which are outside the control of the Division, contribute to the number of boating accidents. It is our goal to continue to emphasize boating safety and public education, combined with an enforcement presence, to effect a reduction in the number of boating accidents, injuries, and fatalities.**
