

LRPP EXHIBIT IV: Performance Measure Validity and Reliability

Department: Florida Fish and Wildlife Conservation Commission

Program: Executive Direction and Administrative Services

Service/Budget Entity: Office of Executive Direction and Administrative Support Services

Measure: Number of commercial and other marine fishing license processed

Action (check one):

- Requesting revision to approved performance measure.
- Change in data sources or measurement methodologies.
- Requesting new measure.
- Backup for performance measure nor previously approved or for which validity, reliability and/or methodology information has not been provided.

Data Sources and Methodology:

FWC has developed and implemented the FWC Commercial Saltwater License system (CSL). The database includes the Commercial Saltwater Licensing and Trap Tag applications. The licensing and trap tag data is now housed on a Client/Server Oracle database management system hosted at the STO Shared Resource Center.

Information about the customer and the type of L&P purchased is captured at the time of each L&P sell and stored in a central database. This information is then retrieved and summarized for statistical reporting.

Validity:

The measure of number of L&P issued reflects workload of processing licenses and permits. Validity is assured since there is a direct relationship between the data and the measure.

Reliability:

99%
