“The Way of the Manatee”

Sunshine State Standards
for
Grades 3-5

Our educator kits for 3-5 grades are filled with a variety of items for teachers to use with students in their classrooms. The following subject areas and standards are targeted for each of the kits:

Language Arts	Reading (LA.A.2.2) Writing (LA.B.1.2) Listening, Viewing and Speaking (LA.C.1.2, LA.C.2.2, LA.C3.2) Language (LA.D.2.2)
Mathematics	Number Sense, Concepts and Operations (MA.A.4.2) Measurement (MA.B.3.2) Data Analysis and Probability (MA.E.1.2, MA.E.2.2, MA.E.3.2)
Science	Processes of Life (SC.F.1.2, SC.F.2.2) How Living Things Interact with Their Environment (SC.G.1.2, SC.G.2.2) The Nature of Science (SC.H.1.2, SC.H.3.2)
The Arts	Music: Applications to Life (MU.E.1.2, MU.E.2.2) Theatre: Creation and Communication (TH.B.1.2) Visual Arts: Creation and Communication (VA.B.1.2)
Health and Physical Education	Responsible Health Behavior (HE.B.1.2) Responsible Physical Activity Behaviors (PE.B.1.2, PE.B.2.2)

While it is hard to target the area that covers safety, all children in Florida should know how to swim, boat safely or passively interact with Florida’s wildlife. Included in the kits are some safe boating and water safety materials, a life jacket and the opportunity for students to do some role-playing.

As Florida residents, children may encounter endangered manatees or alligators in freshwater rivers, lakes or springs or may encounter sharks and other wildlife in the ocean or Gulf. Appropriate safety and wildlife viewing guidelines should help students understand what they should do in these instances. Please visit the Florida Fish and Wildlife Conservation Commission’s web site for more information –
